

DOORTECH INDUSTRIES, INC.

“Manufactures of Quality Garage Doors”

Dear Valued Door Dealer,

DoorTech Industries is now manufacturing and offering residential and commercial full view aluminum framed glass garage doors. We are producing these doors in a variety of frame finishes including clear and bronze anodized and many custom powder coat colors. Glass options are standard in white laminate, frosted, tinted and obscure, additionally; many other custom glass options are available upon request. These doors are designed with uniform panel size and include built in meeting rail struts on all doublewide doors and double end stiles on doors starting at 17'. We are introducing the “AlumiTech” to dealers at the promotional price listed below as an opportunity for you to become familiar with our high quality and very competitive pricing.

***New Product Promotion
